

Keep it simple with our "Charge and Go" Megs: The S601R and S600R Megaphones

SB601R/S601R Mity-Meg 20 Watt Megaphone

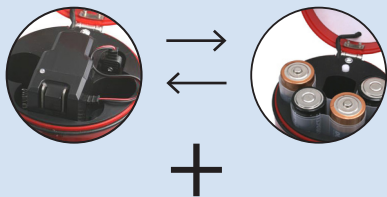

SB600R/S600R Mini-Meg 10 Watt Megaphone

The AmpliVox POWER GUARANTEE

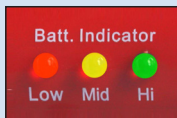

Interchangeable Power Source

Power up with the **Rechargeable Li-ion Battery Pack** for two times more operating time. OR use standard batteries. It's your choice!

Battery Strength Indicator*

Only from AmpliVox, the **Battery Indicator Lights** means you'll always know when it's time to recharge or replace the batteries.

You'll never
 = run out of
 power again!

* Battery Indicator Lights featured on S601R, SB601R only. Not on S600R or SB600R

- **MITY-MEGS GO THE DISTANCE!** 20 Watts means you'll be heard up 900 yards. That's just about nine football fields!
- **MINI-MEGS COMMAND ATTENTION!** 10 Watts covers up to 100 yards and groups of up to 50 people. Perfect for smaller groups and venues.
- **DOUBLE YOUR TALK TIME!** The Lithium-ion battery pack delivers up to two times more operating time than standard batteries.
- **BATTERY INDICATOR LIGHTS (S601R only)** mean you'll always know when it's time to recharge.
- **CHARGE! ANYTIME, ANYPLACE** You'll never be without your charger—it's built right into the battery! Your next charge is as close as the nearest outlet.
- **NO POWER? NO PROBLEM!** AmpliVox megaphones are designed to run on both Li-ion batteries or standard batteries.

Put the Li-ion inside!

S1402 Lithium-ion Battery Pack with built in charging plug

Battery plugs directly into outlet. No charger to keep track of!

LED Charge Status Indicator and Automatic Charge Protection

Go green and save green! Rechargeable batteries can be reused hundreds of times and last for years. And fewer batteries in landfills means a greener world for all.

See next page for product specifications.

Specifications:

	SB601/S601	SB600/S600
Effective Range:	900 yards	100 yards
Rated Power Output:	20W	10W
Decibels:	116 db	100 db
Warranty:	1 year limited	1 year limited

S1402 Lithium-ion Battery Specifications:

Type:	Lithium-ion
Input Voltage:	110–240V
Universal Input:	Compatible with all world currents with the appropriate adapter plug
Charging Time:	4 Hours
Dimensions:	3" H x 1.3" W x 1.4" D
Operating Capacity & Standby Time:	A fully charged battery will provide 8 hours of typical operation, defined as speaking 35% of the time at mid volume and over one year of standby / idle time.
Cycle Life:	80% of rated capacity after 300 charge / discharge cycles; 60% after 500 cycles. <i>Storing, transporting or using the battery pack at temperatures exceeding 115° F / 45° C or -4 F° / -20° C will substantially reduce the cycle life of the battery.</i>
